Leadership

Vice Chair, Lymphatic Filariasis NGDO Network

Emily's Bio

Emily Toubali is the Director for HKI's new Morbidity Management and Disability Prevention (MMDP) project. Previously she was HKI's Senior Program Manager for Neglected Tropical Disease Control programs in West, Central, and East Africa, where she provided day-to-day support in monitoring and evaluation, program management, and technical assistance to HKI program staff and Ministries of Health. While at HKI, she has also led and participated in the implementation of trachoma baseline mapping and impact assessments, post-Mass Drug Administration coverage surveys, and program impact studies. Prior to HKI, Emily spent five years working on public health issues such as emerging infections, emergency care, bioterrorism, and HIV/AIDS at the University of Alabama at Birmingham and Columbia University. Emily graduated from Columbia University's Mailman School of Public Health in 2009 with a Master's of Public Health in Epidemiology.
